Profile

I am a full-stack web developer and a professional jazz pianist. I am always enthusiastic about taking on new challenges and finding ways to grow as a developer and a human. When I'm not coding, you can find me at the piano, exploring world cuisines and traveling to new places.

Front End Skills

HTML5

CSS3

Bootstrap

React

JSON

Responsive Design

Back End Skills

JavaScript

Ruby on Rails

SQL

Node.js

Express

Git

Experience

Web Development Immersive, General Assembly   2018

Conceived, built and deployed fullstack web applications as part of a three month intensive course, focusing on widely used & cutting-edge technology
Worked in groups to develop and solve problems, utilizing an agile team dynamic

Projects

War - The Card Game
- Built a vanilla JavaScript card game, constructing functions to build & shuffle a deck, and check for win-states

IdenTreefier
- Used Node.js, Express, SQL, EJS, Google Maps API and NYC Tree Census API to create a fullstack app that plots every sidewalk tree on a map from any NYC zipcode
- Built a server using promises to communicate with the API and access details needed for each individual tree

Recordnition
- Created a mobile app using React Native, utilizing the Google Vision API to recognize an album cover and use JSON data to return search results from the Discogs API
- Built and deployed a seperate server to assist with OAuth when accessing data from the Discogs API

Piano Teacher, Mobile Music NYC   2016-Present

- Teaches private piano lessons to students of all ages, specializing in young beginners
- Incorporates current pop music and favorite artists of students as a vehicle to teach foundational music theory.
- Works with parents of young students to outline short-term and long-term goals, practice schedules, assignments, etc

Scheduling Manager, Brooklyn Bark   2016-2018
- Was responsible for managing and overseeing daily schedules for 30 Care Associates
- Maintained and updates behavioral and medical records for pets, as well as customer profiles in order to provide the best service possible

Education

Web Development Immersive, General Assembly	2018
